## The Barrel Proeject

*Our exciting new barrel project combines our love for Australian craft gin with a unique cocktail experience that is constantly changing with each fill of the barrel. We've teamed up with some Australian distilleries to bring you a new drinking adventure tailored to drinkers of neat spirits and bold cocktails. We plan on ageing a multitude of drinks, from straight gin, to classic negronis, to our own unique creations. Inquire with our staff to see what is currently ageing and pouring.*

## Snapper Select

*Snapper Select is a new addition to our menu. It features a selection of Red Snappers - Bloody Marys made on gin, created in house by us, each different in its own way.*

*We base each snapper on our house snapper mix, which has been crafted from a variety of ingredients, and is our own take on what a Bloody Mary mix should taste like. From there we choose a gin to suit a particular style, and modify the drink to be either mild, spicy, or smoky. Choose a house made snapper off of our list, or ask one of our bartenders to tailor one to you on a gin of your choice.*
